## Education & Career Path

Information Technology (IT) industry is one of the fastest growing industries in the world. Employment opportunities in the IT industry are abundant and highly rewarding! Some of our smartest professionals in the country are creating world class innovations in the IT industry.

There are many employment opportunities in the industry for those who make the right choice in education and training. Mathematics, English and Computing Skills are the basics to know. While a degree in IT is the usual path to enter the industry, there are various post A/L and O/L training opportunities that will equip you with the knowledge required by the IT industry. For those who have earned degrees in other fields, conversion programs are readily available as well.

If you love technology and are passionate about computer programming, eager to work in an international environment, this is a career for you!
